Deyvan Loxefal

Lampung, Indonesia | +62 895 6182 36797 | deyvanloxefals@gmail.com | linkedin.com/in/deyvanloxefal | datascienceportfol.io/deyvlox

Data Science graduate from Institut Teknologi Sumatera with hands-on experience in data analysis, machine learning, database management, and data visualization through academic projects, organizational activities, and an internship at the Central Bureau of Statistics (BPS). Proficient in Python, SQL, R, and data visualization tools, with experience working with statistical datasets, developing predictive models, and building interactive dashboards. Adaptable and analytical, with strong communication, problem-solving, and teamwork skills, seeking opportunities to contribute to data-driven and technology-oriented projects.

WORK EXPERIENCE

Sumatera Institute of Technology **February 2025 - May 2025**

Database Technology Practicum Assistant

- Assisted in delivering database technology laboratory sessions for 30+ undergraduate students alongside a team of five teaching assistants.
- Guided students in implementing database concepts, including SQL, PostgreSQL, query processing, and database technologies using Java, Python, DBeaver, QGIS, etc.
- Collaborated with lecturers and fellow teaching assistants to ensure smooth laboratory sessions and achievement of course learning objectives.

Central Bureau of Statistics of Bandar Lampung City **July 2024 - August 2024**

Data Processor Intern - Technical Division

- Processed, validated, and cross-checked statistical datasets to ensure data accuracy for official publications.
- Contributed to the preparation of six official publications from the 2023 Agricultural Census (Phase II) covering livestock, food crops, forestry, horticulture, plantations, and fisheries.
- Developed interactive population dashboards using Google Looker Studio to support data visualization and public information delivery.
- Designed statistical infographics using Canva to communicate census findings in a clear and engaging format.

EDUCATION

Institut Teknologi Sumatera - *Lampung* **August 2021 - August 2026**

Bachelor of Data Science

Bachelor Thesis: https://repo.itera.ac.id/depan/submission/SB2609150022

Malaria Classification in Blood Cell Images using Vision Transformer and Cross-Attention Multi-Scale Vision Transformer

PROJECT

Malaria Classification in Blood Cell Images using Vision Transformer (ViT) with Particle Swarm Optimization (PSO) Hyperparameter Optimization

- Developed an extension of bachelor thesis research by focusing on automated hyperparameter tuning using Particle Swarm Optimization (PSO) for the Vision Transformer (ViT) model.
- Applied Particle Swarm Optimization (PSO) for automatic hyperparameter tuning, improving model optimization over manual search.
- Achieved 97.97% test accuracy through extensive data augmentation and model optimization.

Sentiment Analysis of GetContact Reviews: Understanding User Perception with NLP

- Collected and analyzed 50,000 Google Play reviews to understand user sentiment toward the GetContact application.

- Built an NLP pipeline including preprocessing, TF-IDF feature extraction, and Logistic Regression classification.
- Achieved 85.93% accuracy, with TF-IDF outperforming Bag-of-Words in reducing false positives.

Electrocardiogram (ECG) Signal Classification for Cardiovascular Disease Using Convolutional Neural Network (CNN)

- Developed a deep learning model based on VGG16 transfer learning to classify cardiovascular disease from ECG signals.
- Evaluated three model configurations by optimizing learning rate, batch size, dropout, frozen layers, and optimizer.
- Achieved 97% validation accuracy and 95% confusion matrix accuracy, with the best-performing model demonstrating stable generalization performance.

ORGANISATIONAL EXPERIENCE

HMSD Adyatama ITERA 2024 **February 2024 - February 2025**

Head of Interest and Talent Management Division

- Led a team of 8 members in planning and executing five student development programs focused on sports and arts.
- Coordinated the department's flagship sports and arts competition, strengthening student engagement and collaboration within the Data Science program.
- Contributed to the faculty's achievement of 1st Overall Champion in the Faculty of Science Sports Competition and 3rd Place in the ITERA Band Competition.

Lancang Kuning ITERA 2023 **March 2023 - December 2023**

Head Of External Department

- Coordinated communication and collaboration with internal and external student organizations.
- Managed organizational correspondence and represented the organization in partnership and networking activities.

CERTIFICATION

- **Data Scientist - Digital Talent Scholarship | Credential ID 21211995840-464**
- **Data Analyst - DQLab x Digital Talent Scholarship | Credential ID 21212009840-193**
- **SQL - HackerRank | Credential ID 9377A8B55EC4**
- **Excel Data Analysis - Microsoft**

SKILLS

Soft Skill	**:**	Adaptability, Communication, Decision Making, Organization, Presentations, Problem-Solving, Teamwork, Time Management.
Hard Skill	**:**	Programming (Python, SQL, R), Machine Learning & Deep Learning (Scikit-Learn, TensorFlow, Keras, PyTorch), NLP (NLTK), Data Manipulation (Pandas, NumPy), Database (PostgreSQL), Data Visualization, Microsoft Office.
